leetcode.com/u/SIVATEJA_MANDADI

Summary

Backend-focused full-stack developer with strong **problem-solving skills** and a solid foundation in **Data Structures and Algorithms**. Experienced in building **secure, scalable backend systems** using **Spring Boot, Spring Security, JWT, and MySQL**, along with React-based frontends. Hands-on experience developing and deploying real-world applications involving authentication, payments, dashboards, and analytics. Actively preparing for software engineering roles with a strong focus on backend engineering and DSA.

Technical Skills

Languages	Java, SQL
Backend	Spring Boot, Spring Security, JWT, REST APIs
Frontend	React.js
Database	MySQL
Core CS	Data Structures, Algorithms, OOP, DBMS, Operating Systems
Tools	Git, GitHub, Postman, Render, Netlify

Projects

Retail Management System (Shop Manager) *Spring Boot, React, MySQL, Spring Security, Razorpay*

- Developed a full-stack retail management system to handle products, categories, orders, and sales.
- Designed and implemented **RESTful APIs** for Category, Item, Order, and Dashboard modules.
- Implemented secure **authentication and authorization** using Spring Security.
- Integrated **Razorpay payment gateway** for online transactions.
- Built React-based dashboards, explore module, and order history views.
- Implemented backend image storage for product and item management.

Money Management System *Spring Boot, React, MySQL, JWT*

- Built a secure personal finance application for tracking income, expenses, and financial insights.
- Implemented **JWT-based authentication** with email verification during user registration.
- Developed backend APIs for income, expense, category, filters, notifications, and dashboard analytics.
- Added **Excel export and email reporting** functionality.
- Deployed backend on **Render** and frontend on **Netlify**.

Problem Solving & DSA

- Strong foundation in **Data Structures and Algorithms**.
- Regular practice of arrays, strings, recursion, stacks, queues, linked lists, trees, and hashing.
- Comfortable with translating problem statements into optimized solutions.

Education

B.Tech – Computer Science and Engineering
Amrita Vishwa Vidyapeetham, Amaravati

2023 – 2027
CGPA: 8.7
